

BRAND & DOCUMENT STYLE GUIDE

Advisory Report Style Guide

The visual system for every HVAC Asset Management advisory report — palette, type, and components. Follow these rules and any report will read as one consistent body of work.

01 · Color Palette

Teal and bronze carry the brand; severity colors are reserved strictly for findings and ratings. Whites are warm, never pure.

BRAND & NEUTRALS

PART I

Energy Memo

DATA TABLE — TEAL HEADER · ZEBRA ROWS · MONO RIGHT-ALIGNED NUMERICS

BUILDING	ANN. TOTAL	\$/SF/YR
1740	\$101,064	\$1.75
1750	\$129,525	\$2.07

KEY-FINDING CALLOUT

All three buildings are spending more per square foot than the comparable benchmark.

CAVEAT BOX

GOVERNING CAVEAT

No single verified industry-standard benchmark could be confirmed; figures are presented with sourcing intact.

RECOMMENDATION BOX

RECOMMENDATION

Pull BMS trend data or install temporary submetering before presenting an HVAC-isolated figure.

STAT TILE

\$20,337

Combined Annual Spend

3 Solace PM + 1 Automated Electric

FINDING CARD — COLORED LEFT STRIPE MATCHES SEVERITY

01 Document drafted for a different service tier than the one sold

HIGH

Cover page reads "tri-annual" while every interior schedule header reads "quarterly" — a dispute would turn on which label controls.

CHART — BARS COLORED BY STATUS

04 · Layout Rules

- US Letter, zero page margin; full-bleed teal bands run edge to edge.
- H2 sections open with a 1.5px hairline rule above; ~44px top spacing.
- Tables, callouts, charts, and finding cards never split across pages.
- Text blocks inset 0.85in left/right; bands and dividers stay full width.
- Each Part begins on a fresh page; cover and major parts force page breaks.
- Every estimate is labeled as such; disclaimers close each part in muted 11.5px.

HVAC Asset Management · Report Style Guide v1 · Use alongside the master report template. Severity colors are reserved for findings and ratings — never decorative.
